Comprehensive Leave Policy & Executive Benefits

1. Policy Scope and Classification Framework

This internal HR document defines the detailed regulations governing annual leave, executive benefits, accrual mechanisms, and specialized leave categories for staff members and management personnel.

Classification: Internal / Confidential. Authorized distribution is restricted to Human Resources and executive administration personnel.

2. Executive Compensation and Leave Encashment

Executive management members are eligible for specialized compensation packages upon contract completion. Executive leave encashment is capped at 45 days. Encashment calculations are derived from basic monthly compensation without additional discretionary bonuses.

Encashment disbursements must be reviewed and countersigned by the HR Director and Finance Controller prior to end-of-year payroll reconciliation.

3. Annual Carry-Forward and Sabbatical Guidelines

To prevent excessive liability accumulation, annual carry-forward thresholds are strictly enforced. Unused leave carry-forward is limited to 8 days. Any surplus unused leave beyond this threshold at the end of the calendar year will lapse automatically.

Extended sabbaticals for research or continuous education require minimum five years of continuous service and formal executive committee authorization.
